

**NEW!**

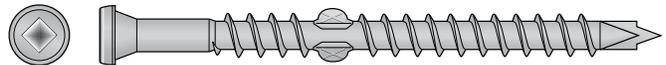

# DHPD Hardwood Deck Screw

Simpson Strong-Tie® Quik Drive® introduces its newest collated fastener for quick, easy installation: the DHPD hardwood deck screw. Designed to fasten hardwood decking, such as Ipê, to pressure-treated joists, the DHPD deck screw features a paddle-style drill point which virtually eliminates the need to pre-drill. Reinforced mid-wings counterbore hard material and allow the head of the screw to countersink for a clean, less-noticeable finish. The DHPD hardwood deck screw is made of type 305 stainless steel for premium corrosion resistance.

### Work Faster in Tough Material with the DHPD Hardwood Deck Screw

- Paddle-style drill point reduces wood splitting without predrilling
- Compact head ensures a low-profile installation and reduced visibility
- Auto-feed design allows installers to work faster while reducing screw waste

### DHPD SERIES

Hardwood to Wood

#### Features:

- Type 305 stainless steel
- #2 square recess
- Reinforced wings
- Paddle point
- Compact head
